

ANISE SEED

Botanical Name: Pimpinella anisum

Common Name: Aniseed

Medicinal part: Seeds, oil

Description: Not to be confused with star anise, Anise shares a similar flavor to licorice and fennel. Due to the similarities in their names and flavors, is often confused with star anise - an entirely different plant. Anise is a flowering plant in the celery/parsley family that has been historically cultivated in Egypt and the Middle East for its medicinal properties. Today, it can be found in candies, drinks, and other dishes.
