

SAVORY

Botanical Name: *Satureja hortensis*

Common Name: Savory

Medicinal part: Aerial Part

Description: *Satureja* is a genus of aromatic plants of the family Lamiaceae, related to rosemary and thyme. It is native to North Africa, southern and southeastern Europe, the Middle East, and Central Asia. A few New World species were formerly included in *Satureja*, but they have all been moved to other genera. Several species are cultivated as culinary herbs called savory, and they have become established in the wild in a few places.
